

HAPPY NEW YEAR!

**CALL
LEGACY!**

Winter's chill is here: is your HVAC ready?

Chances are your New Year's resolution wasn't to take better care of your HVAC system! However, it is important to make sure that your system is in good condition for the long and frigid winter months here in the northwest.

Trust the commercial HVAC experts at Legacy Heating & Cooling to provide the routine maintenance and upkeep needed for a healthy and comfortable work environment. Call us today to schedule your complimentary HVAC inspection!

THE BENEFITS OF ROUTINE HVAC MAINTENANCE

- **Enhanced Efficiency:** Regular maintenance keeps your HVAC system running at its best, reducing energy usage & lowering utility bills.
- **Extended Equipment Life:** Proper upkeep can significantly extend the life of your HVAC system, saving on future replacement costs.
- **Improved Air Quality:** Regular servicing ensures cleaner air circulation, promoting a healthier indoor environment.
- **Preventative Care:** Identifies potential issues early, preventing costly emergency repairs and downtime.

Ready to optimize your HVAC system?

Contact Legacy Heating and Cooling today to schedule your routine maintenance and experience these benefits firsthand.

Service Spotlight

Alyssa Smith
Google Review

"I hired Legacy for my firm after the previous HVAC company we had dropped the ball and it's been great! They are quick to respond, show up when they say they will and even identified some problems that the previous company never notified us of and fixed them quickly so it didn't get worse!"
